LUCKY DRAW

SAGU GULA MELAKA *Merdeka Edition*

with METABOLIC+VCO

INGREDIENTS:

- 3L (12 cups) + 80 ml (1/3 cup) water
- 200g pearl sago
- 250 ml (1 cup) fresh milk
- 15 ml (1 tbsp) Metabolic+VCO
- 1 pandan leaf, knotted
- A pinch of salt
- 200g gula melaka (palm sugar), roughly chopped into small pieces

STEP 1

In a large pot, bring 3L of water to a boil. Add in sago pearls. Make sure to stir constantly to prevent the sago from settling on the bottom of the pot. Cook 10 to 15 minutes, until the sago pearls are completely translucent.

STEP 2

Separate sago pearls into 3 separate containers. Add in blue, yellow, and red food coloring to each container and stir until the sago is thoroughly saturated with the color. Transfer the colored sago into jelly molds and chill in the refrigerator for a minimum of 2 hours.

STEP 3

In a small saucepan, stir together the gula melaka and water. Bring to a boil, and cook until the sugar has dissolved. Strain through a fine sieve to remove grit.

STEP 4

Mix 250ml of fresh milk with 15ml of Metabolic+VCO.

STEP 5

Unmold chilled sago pudding into a shallow bowl (or, you can enjoy it right out of the bowls/glasses). Pour some fresh milk+VCO mix over, and drizzle with gula melaka syrup.
